Report on review of the condensed consolidated interim financial information To the Shareholders of Air Arabia PJSC

Introduction

We have reviewed the accompanying condensed consolidated statement of financial position of Air Arabia PJSC ("the Company") and its subsidiaries (collectively referred to as "the Group") as at March 31, 2021, and the related condensed consolidated statement of profit or loss, condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the three month period then ended, and explanatory notes.

Management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with International Accounting Standard 34 Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed consolidated interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34.

2 Basis of preparation and summary of significant accounting policies

a) Basis of preparation

The condensed consolidated interim financial information of the Group has been prepared in accordance with International Accounting Standard (IAS) 34, *Interim Financial Reporting*. The condensed consolidated interim financial information does not include all of the information required for full annual consolidated financial statements prepared in accordance with the International Financial Reporting Standards (IFRS) and should be read in conjunction with the consolidated financial statements of the Group for the year ended December 31, 2020.

Accounting policies, related adjustments, estimates and assumptions adopted for the preparation of this condensed consolidated interim financial information are same as those applied in the preparation of the audited consolidated financial statements for the year ended December 31, 2020.

Notes to the condensed consolidated interim financial information (continued) For the period ended March 31, 2021

2 Basis of preparation and summary of significant accounting policies (continued)

a) Basis of preparation (continued)

The condensed consolidated interim financial information has been prepared on the historical cost basis except for derivative financial instruments and investments measured at fair value through other comprehensive income (FVOCI), which are measured at their fair values.

b) Functional and presentation currency

The condensed consolidated interim financial information is presented in United Arab Emirates Dirham ("AED"), which is the Group's functional currency. All values are rounded to the nearest thousands ('000) except where noted otherwise.

c) Basis of consolidation

This condensed consolidated interim financial information incorporates the financial information of the Company and entities controlled by the Company. Control is achieved where the Company has the power over the investee, exposure, or rights, to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the investor's returns.

d) Significant accounting estimates and judgments

The preparation of the condensed consolidated interim financial information in conformity with IAS 34, requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

The significant judgements made by the management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that were applied in preparation of the consolidated financial statements of the Group as at and for the year ended December 31, 2020.

e) Impact of COVID-19 and current economic scenario

The coronavirus ("COVID-19") has spread across various geographies globally, causing disruption to business and economic activities. COVID-19 has brought about uncertainties in the global economic environment. On March 11, 2020, the World Health Organisation ("WHO") officially declared COVID-19 a global pandemic. Based on GCAA directive suspension of all inbound and outbound flights to UAE except cargo flights and evacuation flights, effective from March 24, 2020 was done, as a preventive measure to contain the spread of COVID-19. Further, the oil prices have witnessed unprecedented volatility. The economic fallout of COVID-19 crisis is expected to be significant and is rapidly evolving at the present time.

Business continuity planning

The Group is closely monitoring the situation and has activated its business continuity plan and other risk management practices to manage the business disruption resulted from COVID-19 outbreak in order to boost the liquidity and sustain the business.

The Group will adapt its operating procedures to ensure its passengers and its people are properly protected in this new environment and in line with any new requirements in the industry.

COVID-19 impact on measurement of ECL

The uncertainties caused by COVID-19, and the volatility in oil prices have required the Group to update the inputs and assumptions used for the determination of expected credit losses ("ECLs") as at March 31, 2021. IFRS 9 framework requires the estimation of Expected Credit Loss (ECL) based on current and forecast economic conditions.

Notes to the condensed consolidated interim financial information (continued) For the period ended March 31, 2021

2 Basis of preparation and summary of significant accounting policies (continued)

e) Impact of COVID-19 and current economic scenario (continued)

COVID-19 impact on measurement of ECL (continued)

ECLs were estimated based on a range of forecast economic conditions as at that date and considering that the situation is fast evolving, the Group has considered the impact of higher volatility in the forward-looking macro-economic factors, when determining the severity and likelihood of economic scenarios for ECL determination. This volatility has been reflected through adjustment in the methods of scenario construction and the underlying weightages assigned to these scenarios. The situation is fast evolving and accordingly any downside scenarios will be reassessed if adverse conditions continue. The Group has given specific consideration to the relevant impact of COVID-19 on the qualitative and quantitative factors when determining the significant increase in credit risk and assessing the indicators of impairment for the exposures as at reporting date. Taking into consideration that, majority of Group's receivables are from sales agents which are secured mainly by bank guarantees and deposits.

Liquidity risk and management actions

The Group has adopted a proactive approach in order to ensure its liquidity to be able to sustain the business and to meet the fixed costs during this period. From March 26, 2020 the aircrafts have been completely grounded and with limited operation in April 2020 for repatriation flight and cargo-only flights. In the third and fourth quarter of 2020, there was a gradual resumption of operations with limited scheduled flights. During the first quarter of 2021, the Group has continued with gradual resumption of operations to and from some destinations subject to regulatory conditions and as and when travel restrictions in various countries have been lifted. The Group has taken measures to minimize liquidity risks, through a combination of salary cuts and through a mechanism for staff based on any unpaid leave, deferred non-essential costs and capital expenditure, and have received waivers/discounts on some of existing airport charges along with other obligations.

As at the reporting date, the Group has a sound liquidity position with AED 3,182 million available funds. Air Arabia had received deferral of Principal and Interest on all existing aircraft loans spread across various banks. Further, UAE Central Bank announced a Targeted Economic Support Scheme ("TESS") facility on March 15, 2020 and under the directives, any organization that is directly affected by COVID 19 situation and is non-government entity qualifies for deferment and interest waiver. The Group has evaluated its liquidity and funding position and, accordingly, approached their local banks to cover under this scheme, and provide the Group with maximum deferment and interest holiday.

3 Financial risk management

The Group's financial risk management objectives and policies are consistent with those disclosed in the consolidated financial statements of the Group as at and for the year ended December 31, 2020.

4 Property and equipment

During the period ended March 31, 2021, the Group acquired various property and equipment amounting to AED 10.4 million (the period ended March 31, 2020: AED 10.97 million).

Depreciation charge on property and equipment for the period ended March 31, 2021 amounted to AED 130 million (the period ended March 31, 2020: AED 128 million).
